Competition Law in Serbia Jun 04 2021 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in the Serbia covers every aspect of the subject – the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities' powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal

professionals alike. Lawyers representing parties with interests in the Serbia will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law.

Catholic Shrines in Chennai, India Sep 27 2020 Though proportionally small, India's Christians are a populous and significant minority. Focussing on various Roman Catholic churches and shrines located in Chennai, a large city in South India where activities concerning saintal revival and shrinal development have taken place in the recent past, this book investigates the phenomenon of Catholic renewal in India. The author tracks the changing local significance of St. Thomas the Apostle, who according to local legend, was martyred and buried in Chennai and details the efforts of the Church hierarchy in Chennai to bring about a revival of devotion to St. Thomas. Insodoing, the book considers Indian Catholic identity, Indian Christian indigeneity and Hindu nationalism, as well as the marketing of St. Thomas and Catholicism within South India.

Sustainability Science for Social, Economic, and Environmental Development May 23 2020 While the effects of climate change become ever more apparent and pressing, the discussion of sustainable practices and environmental protection is a common overture among the academic and scientific communities. However, in order to be truly effective, sustainable solutions must be tested and applied in real-world situations. Sustainability Science for Social, Economic, and Environmental Development investigates the role of sustainability in the everyday lives of ordinary citizens, including issues of economy, social interaction, exploitation of natural resources, and sources of renewable energy. In this book, researchers, policy makers, economists, scientists, and general readers will all find crucial insight into the parallels between theory and practice in sustainable development.

Strategic Change and Transformation Dec 23 2022 Strategic change and transformation are words used very commonly in business parlance but rarely defined. Besides, change and transformations are often used interchangeably. Thus the correct perspective of viewing change and transformations is missing from management literature. How is change different from transformation? Do all changes lead to renewal? What are the characteristics of strategic changes? This re-addresses some of our current assumptions and understanding of change and transformation when viewed through both academic and business lenses. It is a balanced and well-rounded perspective on how strategic change and transformation can be brought about successfully in organizations specifically with the perspective from an emerging economy like India.
