33 Questions About American History You're Not Supposed to Ask Apr 14 2020 Guess what? The Indians didn't save the Pilgrims from starvation by teaching them to grow corn. Thomas Jefferson thought states' rights—an idea reviled today—were even more important than the Constitution's checks and balances. The "Wild" West was more peaceful and a lot safer than most modern cities. And the biggest scandal of the Clinton years didn't involve an intern in a blue dress. Surprised? Don't be. In America, where history is riddled with misrepresentations, misunderstandings, and flat-out lies about the people and events that have shaped the nation, there's the history you know and then there's the truth. In 33 Questions About American History You're Not Supposed to Ask, Thomas E. Woods Jr., the New York Times bestselling author of *The Politically Incorrect Guide to American History*, sets the record straight with a provocative look at the hidden truths about our nation's history—the ones that have been buried because they're too politically incorrect to discuss. Woods draws on real scholarship—as opposed to the myths, platitudes, and slogans so many other "history" books are based on—to ask and answer tough questions about American history, including:

- Did the Founding Fathers support immigration?
- Was the Civil War all about slavery?
- Did the Framers really look to the American Indians as the model for the U.S. political system?
- Was the U.S. Constitution meant to

be a “living, breathing” document—and does it grant the federal government wide latitude to operate as it pleases? - Did Bill Clinton actually stop a genocide, as we’re told? You’d never know it from the history that’s been handed down to us, but the answer to all those questions is no. Woods’s eye-opening exploration reveals how much has been whitewashed from the historical record, overlooked, and skewed beyond recognition. More informative than your last U.S. history class, *33 Questions About American History You’re Not Supposed to Ask* will have you wondering just how much about your nation’s past you haven’t been told.

Guns, Germs, and Steel: The Fates of Human Societies Jun 09 2022 "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and ventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

Brutality and fear. Heroism and sacrifice. Military history is a fascinating, complex, and often contradictory subject. War and fighting between tribes, clans, groups and countries has been with us forever. Great leaders, great villains, pivotal moments and events become transformative, causing political, social, and technological upheavals, which were often built on the foundation of war. The Handy Military History Answer Book is a captivating, concise, and convenient look at how the world, the United States, and the lives we lead today have been changed by war and the military. The weapons, leaders, soldiers, battles, tactics, strategies, blunders, technologies, and outcomes are all examined in this powerful primer on the military, its history—and world history. From early Greeks and Romans to

Genghis Kahn and other great conquering militaries of the past, continuing on through the civil wars and world wars that shaped the boundaries of today's nations, and to the modern weapons, technologies, guerrilla warfare, and terrorism currently reported in the nightly news, this book investigates everything from the smallest miscalculations and maneuvers to the biggest invasions and battles, as well as the cutting-edge technologies and firepower that led to victories and helped change the world. The Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. It answers over 1,100 questions, from the mostly widely asked to the more obscure, such as: Who cast the first stone (of human history)? Who were the "Sea Peoples?" Which precious metal did the Vikings prefer above all others? Do we even have his name--Genghis Khan--right? Who employed the composite bow with greater effectiveness: the Arabs or the Turks? Why did Pope Urban II go to central France in 1095? Where did Richard the Lion-Heart get his nickname? Why on earth did Hitler code-name his invasion of Russia for a German emperor who drowned? Who was the greater wit: Voltaire or King Frederick the Great? About whom did King George II remark: "Mad, is he? Well I hope he bites some of my other generals?" What great poet spent years gathering food and wine for the Spanish Armada? What was the price for King Francis' freedom, in 1526? How long did it take to learn how to use the longbow? What did the Franciscan monks say when they returned from Karakorum? Was Napoleon really not French?

Who won the Battle of the Nile, and how? Where was the world's first submarine deployed? When did George Washington have to alter all his plans: and how did he go about making the change?
